1.3 Investment Objectives

The investment objective of the CT CLSA INCOME FUND is to provide an annual income by investing in a portfolio of fixed income securities with a moderate level of risk. The Scheme will invest in corporate debt and government securities to provide a suitable return for unit holders by investing in institutions which the manager's consider fulfils the risk and return requirements of the scheme.

The Scheme will aim to achieve its investment objectives by investing in following securities

- Treasury bills
- Treasury bonds
- Fixed Deposits
- Listed and unlisted corporate debt
- Securities that are backed by a specific pool of assets with suitable safeguards
- Other fixed income instruments including BASEL III compliant debentures.

1.3.1. Investment Strategy and Philosophy

The Managing Company will identify and make investments in fixed income securities so as to maximize the yield by exposing the Scheme to a moderate level of risk. The Scheme will maintain a sufficient level of liquidity in order to meet redemptions and gain sufficient interest income. The Scheme will primarily seek interest income but will also take advantage of capital gain opportunities when available.

Based on continuous macroeconomic research and interest rate forecasts, the Scheme will strategically invest in a diversified portfolio of government securities and corporate debt instruments of varying tenors in order to maximize the Scheme yield for a moderate level of risk. The mix between government securities and corporate debt will vary over time based on what is most advantageous in terms of risk and yield to achieve the objectives of the scheme.

The Scheme will maintain an exposure to corporate debt instruments to enhance the yield of the Scheme and improve the overall return. Corporate debt instruments and issuers will be evaluated by researching the issuer's financial health, solvency, management experience, economic impact and interest rates.

The Managers may from time to time modify the strategy of the Scheme but will do so keeping to the stated objectives of the Scheme. The Scheme may also invest in instruments not mentioned earlier provided prior approval of the Securities and Exchange Commission of Sri Lanka is obtained.

The Scheme's investments are subject to normal market risks and the ability to achieve the investment objectives will depend to a great extent on the overall performance of the economy and the contributory environmental factors.

The Scheme will seek to achieve its investment objectives by acquiring and holding the following types of investments as permitted by the Securities and Exchange Commission under the regulations governing unit trusts.

- Treasury bills
- Treasury bonds
- Fixed Deposits
- Listed and unlisted corporate debt
- Securities that are backed by a specific pool of assets with suitable safeguards
- Other fixed income instruments including BASEL III compliant debentures.

1.4 Investment Risks

Risks The investors in the Scheme should be aware that the Unit Prices and the Dividend paid by the Scheme can fluctuate according to the fluctuations in the interest rates in the market. Investment in units does not guarantee any fixed returns. Investments in fixed income securities may fluctuate in line with the overall movement in interest rates.

Mitigation Strategy The Managing Company shall take reasonable steps to mitigate the effect of such risks by effectively managing the duration of the portfolio in line with interest rate expectations.

However such measures do not guarantee returns or ensure that the scheme objectives can be met.
